Signs

- **City of Rockledge Land Development Regulations**

- **86.11. - Applications for permits.**

All applications for street graphics permits required by this section shall be filed by the owner, or his agent, in the office of the building official, upon forms furnished by the city. Said applications shall describe and set forth the following:

- (1) The type of street graphic as defined in this section.
- (2) The actual cost of the street graphic.
- (3) The street address of the property upon which said street graphic is to be located and the proposed location thereof on said property. In the absence of a street address, a method of location acceptable to the building official shall be used.
- (4) The height, shape and dimensions of the street graphic structure, if any, and the dimensions and shape of the sign area.
- (5) The name and address of the owner or other person in control or possession of the real property upon which said street graphic is to be located.
- (6) Written consent of such owner, his lessee or his agent granting permission for the construction, operation, maintenance or display of the street graphic.
- (7) A plan, sketch, blueprint, blue line print or similar presentation drawn to scale, showing all pertinent structural details, wind pressure requirements, and display materials in accordance with the requirements of the Standard Building Code.
- (8) A map showing the location of the proposed street graphic.
- (9) The name of the sign contractor, if any.
- (10) Any other information reasonably required by the building official to determine whether such street graphic is in compliance with the requirements of this section.

Documentation Required:

- Completed Permit Application
- Recorded Notice of Commencement if over \$2,500.00
- 2 sets of engineered drawings with original wet/raised seals and signatures.
- Electrical riser diagram

*An electrical permit must be obtained by a licensed electrical contractor prior to installation.
